DETAILED ACTION

This is in response to communication filed on 8/30/07 in which claims 1-9 are pending. The applicant's amendments have been fully considered therefore this is in condition for allowance. In addition the pending claims have been renumbered as 1-6, 8, 7 and 9, respectively.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: the prior arts of record fail to anticipate or render obvious the following recited features: Sending a shortened synchronization part using the first encoding scheme, followed by sending the first data sequence using the first encoding scheme, followed by sending the second data sequence using the second encoding scheme instead on the sender side and wherein the first encoding scheme is a line coding enabling the synchronization in the receiver as recited in claim 1. Wherein said serialization unit is adapted to generate a the synchronization part using a first encoding scheme, followed by a first data sequence of the payload part using the first encoding scheme, followed by a second data sequence using a second encoding scheme and wherein the first encoding scheme is a line coding enabling the synchronization in a receiver as recited in claim 6. Wherein said detector unit is adapted to detect the end of said first data sequence, said control unit is adapted to adapt the decoder, and said decoder for decoding a second data sequence of the payload part, encoded in a second encoding scheme, and wherein the first encoding scheme is a line coding enabling a synchronization in the receiver as recited in claim 7.
